Dear Parent/Carer

**Year 11 Maths Revision Packs**

During this term, your son/daughter will be completing the syllabus for the AQA 8300 GCSE Linear Mathematics course and will be preparing for the next mock exam. Following completion of the course, the focus of lessons will be revision, examination practice and past paper completion.

All mathematics groups will complete two full sets of past papers in their lessons during the revision period.

Sets of papers are now available to purchase from the school shop priced at £5.00, which is the cost of photocopying and the folder alone. The pack contains twelve examination papers: four 'non-calculator' papers and eight 'calculator' papers. Six of these will be completed in class and the remaining six can be used for personal study. Students who receive free school meals will be supported through funds allocated to the school.

**We strongly recommend that your son/daughter has his/her own set of papers** so that s/he can write on them in lessons and take them home for further study. The completed papers will also provide a valuable revision resource nearer to the examination period.

There will be a limited number of examination papers available in lessons for any students who have not purchased a pack. However, they will be shared between two students and the students will not be permitted to write on them or take them away from the classroom.

The papers are available online from various websites, and freely downloadable for home printing should you wish to take this option.

To purchase a set of papers, please complete the reply slip below, and return to the school office along with your payment. Students will need to bring their packs to lessons as directed by their maths teacher

Thank you for your support.

Yours sincerely

*E Griffiths*
