

Resources to support work over the Summer

Design & Technology

Developed and delivered by innovative education charity the 1851 Trust as part of their programme of science, technology, engineering and mathematics (STEM) engagement, STEM Crew provides free teaching resources covering real world science, technology, engineering and maths for key stage 3 and 4. All of the resources are inspired by INEOS TEAM UK's challenge for the America's Cup, the Formula 1 of international sailing!
