

Year 10

Here are some suggestions of what you could be doing over the 6 week summer holidays...

Using www.corbettmaths.com to practise specific topics (videos and practise questions) or using the 5-a-day feature to keep your maths brain active.

Using www.mymaths.co.uk to test yourself on the topics we have covered in year 10.

Visiting www.nrich.co.uk for problem solving and fun challenges.

Remember that opportunities to practise maths are all around you, whether it be weighing, measuring, using money or working out the football stats.

Keep on practising and learning in order to make your transition into year 11 easier.

Years 7, 8 and 9

Here are some suggestions of what you could be doing over the 6 week summer holidays...

Using www.mymaths.co.uk to test yourself on the topics we have covered this year.

Visiting www.nrich.co.uk or www.murderousmaths.com for problem solving and fun challenges.

Trying the maths games on www.mangahigh.com

Remember that opportunities to practise maths are all around you, whether it be weighing, measuring, using money or working out the football stats.

Have a great summer and we look forward to seeing you next term.
